PROFILE

I am a computer engineer from Izmir, born in 2005 and living in Izmir. I feel a real commitment to Cyber security, Game development and Application development. I have 4 years of freelance experience, but I am ready to visit other countries and work in any design studio! I love working with people, especially if they have the same passion for what they do as me.

See below to see why I am the person you should hire!

WORKS

Computer Engineer

Freelance

2018--Continues

- I have built many personal and corporate websites.
- I developed different applications in line with the requests of my customers and organizations.
- I made some plugins for social media for my customers' needs.
- I worked with several famous content producers and edited a lot of videos during this period.
- I edited commercial videos, documentary videos, entertainment videos, game videos and program videos.

Project Manager

T3 Foundation Teknofest Festival

2022-2023

- I realized my first successful project in high school.
- I took part in the project both as team captain and software developer.
- Using Python language, we developed a device for creatures forgotten in the car.
- Out of 26,000 projects, we made it to the finals and became one of the top 10 projects.
